PRESS RELEASE

Finvista advises CSS Corp on two transactions in the Converged Enterprise IT and Telecom Marketplace

Acquisitions grow revenue and enable CSS to leverage multi-billion dollar telecommunications and remote infrastructure management opportunity

May 11th 2010: Finvista advises CSS Corp, a global technology solutions provider, on their acquisition of Glow Networks, Inc, a telecommunications engineering and consulting firm based in Richardson, Texas and Remote Infrastructure Management Services (RIMS) business unit of InteQ, a leader in On Demand IT Service Management.

Finvista was the sole M&A Advisor to CSS Corp for these two transactions.

Through these acquisitions, CSS will add telecommunication and IT convergence services to its offerings through the acquisitions. Based in Richardson, Texas, Glow Networks is a \$30 million privately held company that has been consistently ranked amongst the fastest growing companies in North America by Deloitte. The company was founded in 2000 and currently has nearly 400 employees in the U.S.

The acquisition of the Remote Infrastructure Management Services (RIMS) business unit of Boston based InteQ will add 30 customers to CSS. InteQ was one of the first companies to launch remote infrastructure management services and has been widely recognized as a pioneer in the field and has made substantial investments in building a robust, proven and scalable monitoring and management service delivery platform that has serviced customers' infrastructure in over 90 countries.

Nick Sharma, CEO, CSS Corp said "These acquisitions are an important milestone in the growth of CSS Corp, scaling our revenues and adding significant technical capabilities. Our customers increasingly seek critical end-to-end solutions to help them manage complex technology environments. The acquisition of two industry leaders positions CSS to be a strong and trusted partner of choice for our customers."

Srinivasu Satti, Founder and Managing Director of Finvista said, "We are quite pleased to be associated with CSS in successfully completing these transactions that are so very relevant in the current technology opportunity landscape. Both Glow and RIMS business bring significant capabilities and marquee customers to CSS and they will play a major role in CSS' future growth"
